

# Long Distance Program

This program was created to analyze and make sure you are getting through Dr. Kwang's MyTea program. The MyTea program is a step by step approach to getting your health back. It's a process and each step must be completed before going onto the next step.

The MyTea program is effective and fast getting the maximum benefit requires careful inspection. We are going to monitor your progress every step of the way so giving us as much information when we ask for it is very important.

You can make this program work faster by staying on your diet and following the MyTea protocol. Tell us ahead of time if you are traveling or stopping the teas for whatever reason so we can make sure you will complete the program.

This program is designed to work quickly and thousands of people have gotten their health back. We are going to make sure you get the same benefits.
